

Doin' it *Dave's* way!

"I first met Dave when he was instructed to act for one of our mortgagee clients to assist with the sale of a mortgaged property. The realization of a mortgaged property can be a sensitive time for everyone involved and can produce some challenging situations.

I found Dave easy to deal with, very professional and excellent at reporting to all parties involved.

I use real estate agents around the country and Dave definitely compares well with those I have used."
